

# Settlement Administration Services

Verus has decades of experience in the design, implementation and management of complex settlements. Our focus on transparency ensures that all stakeholders have visibility into the process. Proprietary technology combined with our experienced staff streamlines the claim resolution process, while ensuring confidentiality and compliance.

## ■ Program Design & Implementation

Our experts work with the settling parties to design claim intake, evaluation and payment processes based upon the specifics of each settlement agreement.

## ■ Website Design

We design easy to navigate websites for the publication of settlement information - making clear and accessible information available to all settling parties.

## ■ Notice Plans & Claimant Engagement

We develop effective notice plans - assisting every step of the way, from the initial design of the notice campaign, drafting of plain-language messaging, and delivery of notice through the most effective channels.

## ■ Claimant Intake

Efficient claim intake portals, including secure online claim forms and APIs for automated filings. We collaborate with stakeholders to design processes that enhance the accuracy of claims submissions and minimize rework that results from poor quality data intake.

## ■ Claim Adjudication

Timely, accurate, and efficient adjudications. Our expert claims analysts make sure that accurate determinations are made the first time- reducing the friction of costly and unnecessary appeals.

## ■ Valuation Models & Forecasting

Our team of data scientists and statisticians build data-driven models to assign claim values, ensuring fair and equitable treatment of all claimants within a settling class. We also specialize in forecasting long-tail liabilities, building sophisticated predictive models to estimate cash flow needs for claim payments and administrative costs for multi-year mass tort settlements.

## ■ Payment Processing

We support a range of digital payment methods that can be customized to meet the needs of any settlement program or claimant population. Our payment systems comply with all banking regulations, including those covering international transactions.

## ■ Qualified Settlement Fund Services

Our Qualified Settlement Fund (QSF) specialist ensure compliance with IRS requirements to guarantee favorable QSF tax treatment of maintained over the life of the settlement program.

## ■ Healthcare Lien Compliance

Verus manages the complexities of MMSEA and other healthcare lien compliance (such as workers compensation and private health plans) for settlement programs. We efficiently manage healthcare lien reporting and resolution, including:

- Medicare Parts A, B, C, and D
- State Medicaid programs
- Veterans Administration / TriCare
- Private insurers
- Workers Compensation
